

# Over 50 Computer Club

***Do you feel like your grandchildren know more about computers than you do?***

***Do you feel left out when you can't even use your cell phone, computer, or digital camera?***

If you answered “yes” to any of these questions then this club is for you! Join us the first Tuesday of every month where we promise we will open up the world of technology for you in terms you can understand. No computer required, just an open mind and a willingness to venture into the world of technology. We promise to make your journey fun, easy, and interesting!

## Meeting Dates & Topics

---

<b>Aug. 5, 2008</b>	Email
